THIS WILL SETTLE THE QUESTION.

" I don't believe there is a word of truth in it. That's the way certain foolish people talk when they hear of anything unusual, or outside the limits of their own observation or experience. They are of the sort who langhed at Stephenson when he introduced the railway, and at Morse when he said that we could communicate by means of electricity. Yet they don't laugh at those things now. They make use of

pulling me down. I had a musty queer feeling Resolution will be submitted :in my stomach. Sometimes food sermed to ease est. Commonly when ford was placed before Article XXIA me I could not touch it, and I often fainted at the very sight of it. After a while I became so weak I could scarcely stand or walk. I thought it was consumption coming on by degrees and I took all sorts of medicines to try and get relief; but it was of no, use, and I got thad of taking physic, for I had lost all faith in it. My business was so urgent that I was compelled to be at work, otherwise I would have lain in bad, so weak had I become. With the weakness and loss of appetite there were other feelings and signs that were bad and alarmed me greatly. the 12th MARCH, both days inclusive. Among thom were these :- A yellewish colour of the skin and eyes, sometimes a cold clammy perspiration, pains and aches in the side, the chest 507! and back, headache, a kind of winder gas coming up into my throat and mouth that was so sour and sickening I could sourcely bear it. Once in a while I would have a strange fluttering and pelpitation that made me think my heart must be affected. My heart would thump so that I feared it would jump out of its place, and I have had to walk about the room for two or three hours at a time, for I could not sit or lie. The pain was so severe that I have asked my husband if he could not hear my heart thumping as I walked about. I always slept badly at night, and frequently had horrible dreams, and was so melancholy and depressed in spirits that I would sit down and cry, for I got no pleasure as hime dragged wearily by. I had so little energy or strength that it was all I could do to summon courage for the labour upon which the family (at least in part) depended for support. I am a dressmaker, and it will be easily understood how hard my life was, for I didn't think it would last much longer. Not long ago as follows :-(May, 1887) I made up my mind to try a medicine that is advertised and known all over the country. I mean Mother Seigel's Curative Syrup. I had no faith in it at first, for how can one believe in what one knows nothing about? I bought and tried 'Mother Seigel's Curative Syrup only because of its reputation. How could so many people, I usked myself, praise a medicine so much if it had no virtue ? I can only say that I found what they said to be true. After beginning with the Syrup, relief soon followed. My food dirested better and gave me strength, and by persevering with it all my pains disappeared. I could eat my food with a relish, and everything agreed with me. Now and again when, through continument and hard work, I feel a touch of my old complaint I take a dose or two of Seigel's Syrap and the trouble goes no further. Since the publication of new / WHE NINTH ORDINARY GENERAL testimonial many persons have called at my house and asked me if all that is published about be held at the Company's Office, Praya Conmy case is true and if the Proprietors of Sergel's tral, on MONDAY; the 21st MARCH, at 3.30 Surup had made additions to my statement.
